Child criminal exploitation occurs where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child or young person under the age of 18 into any criminal activity: In exchange for something the victim needs or wants. For the financial or other advantage of the perpetrator or facilitator. Through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. Child criminal exploitation does not always involve physical contact, it can also occur through the use of technology.

Child Exploitation Tool

May 2020

Bedfordshire

Tackling child exploitation is a complex task. There are similarities between different forms of exploitation and the criminal and sexual exploitation of children may overlap. Think about disruption techniques for those who pose a risk to the child/young person you are working with.

Contextual Safeguarding is an approach to understanding, and responding to, young people's experiences of significant harm beyond their families. Think contextual safeguarding as you work through the tool. This document can be used when discussing the Exploitation of children and young people. Think about appropriate terminology. 'it's not what you say it's how you say it' quote from a Bedfordshire young person.

This T∞l is designed to be used in a multi-agency way; complete the information you have and share with relevant agencies to include what they know, work together.

How to use the Screening Tool

If the referral does not meet the CSC threshold, consider additional referrals to other agencies that can provide support.

YouTurn

Restore, Reform & Reinteg

Created by: Benita Branagan

Do you have information to share? Think about using the Multi Agency Information Submission Form

Ensure the child's voice is within the tool; The child's voice is a phrase used to describe the real involvement of children and young people. It means more than seeking their views'.

Understand Criminal Exploitation and the stages of recruitment and what this means for a child; 'a child cannot consent to abuse'

If you suspect that someone is in immediate danger call the police on 999.

1 BEDFORDSHIRE CHILD EXPLOITATION TOOL

<u>Guidance</u>

This Indicator Tool aims to support practitioners focus on specific exploitation indicators and determine whether further investigations are needed by Children's Social Care (CSC) and Bedfordshire Police. This tool therefore informs both assessment of need and referrals to Children's Social Care. This tool should be attached to your Children's Social Care referral regarding a potential Child Criminal Exploitation (CCE) or Child Sexual Exploitation (CSE) case.

The tool is to be used within a multi-agency way; **all** practitioners working with the child should complete the information they are aware of and include all agencies that are working with the child or family; the aim is to ensure there is a safety plan in place for the child/family.

Often, children do not recognise themselves as victims, or that they are being groomed, and as a result disclosure of such abuse can be unlikely. Therefore, this indicator tool aids the identification of exploitation. This tool can be used alongside the Child Exploitation Practitioners Guidance.

Practitioners need to exercise their own **professional judgment** when completing the tool because factors such as the child's age, any additional vulnerabilities, and their history etc. This may mean that they are more vulnerable to exploitation. Professional judgment also includes capturing concerns about which they have some evidence, information **AND** concerns. Practitioners should differentiate between the two and explain this in the 'comments/evidence/description' sections.

It is important to consider disruption in all forms of Exploitation and for all practitioners to work together to identify and disrupt the perpetrators associated to the Exploitation.

Once you have completed this form: Where child exploitation is suspected the worker should complete a MASH referral form (attaching this form) and Multi-Agency Information Submission Form (If required).

- AccessReferral@centralbedfordshire.gov.uk (Central Bedfordshire Council)
- multi.agency@bedford.gov.uk (Bedford Borough)
- Mash@luton.gov.uk (Luton Borough Council)

CSC are responsible for assessing the level of risk to children. Should the referral not meet CSC's threshold, other support options will be considered including Early Help and referrals to appropriate services.

If you suspect anyone is in immediate danger, call the Police on 999.

Which agencies/workers are involved with this child/family?

3 SAFETY PLANNING

Ensure you have a safety plan in place for the Child/ details to be given below/ What does this child/young person need to make them safer and meet their needs; also consider the needs of the parent/carer and how they can be involved in the protection of their child. It is important to consider disruption in all forms of Exploitation.

How will you know the child is safer and their needs are being met?

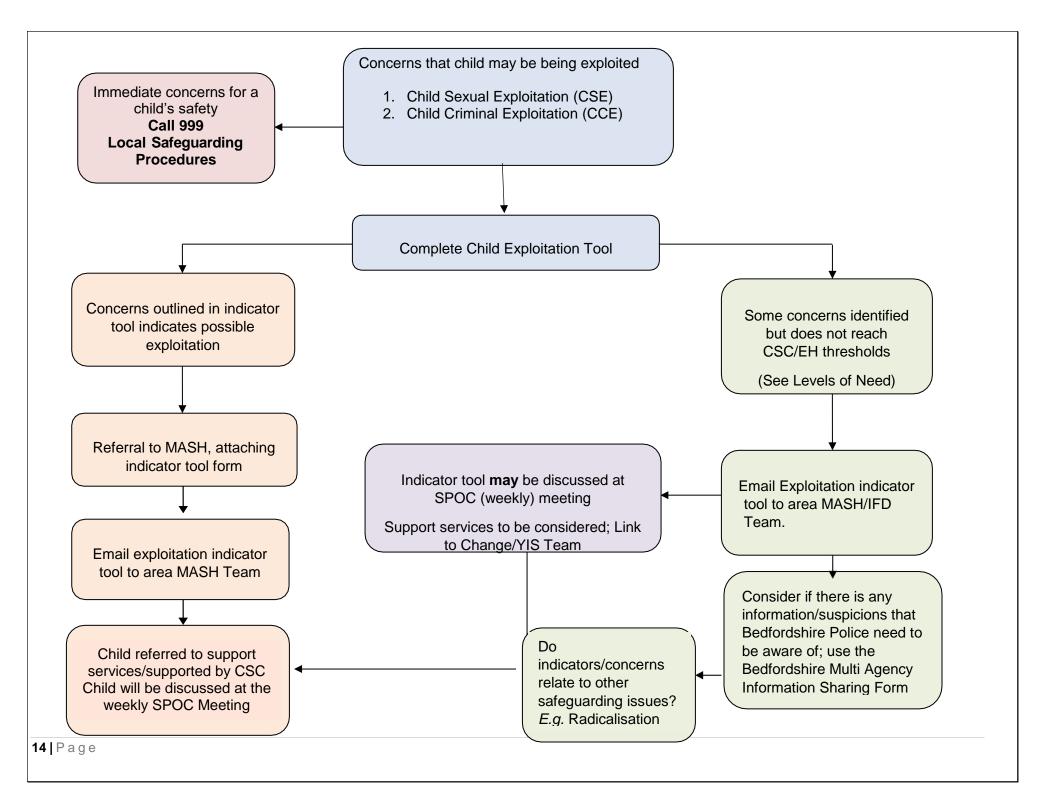

Consider which of the following actions should be taken following completion of assessment if applicable: (not an exhaustive list)

Date to be completed

by:

- > Dial 999 to secure an immediate police response
- Discuss with Line Manager/Safeguarding Lead
- Contact local CSE Coordinator/SPOC/CCE Coordinator
- Coordinate multi-agency early help support
- Refer to MASH/Children's Social Care
- Share information with Police (Multi Agency Information Sharing Form)
- Request/arrange a multi-agency meeting e.g. strategy meeting, Child in Need Meeting or other meeting as required by local CSE/CCE pathway
- > Arrange a sexual health assessment/review (Consider SARC services)
- > Work alongside parents/carers to identify and respond to their needs
- > Address any issues in relation to the child's education
- Refer to specialist CE/CSE services e.g. voluntary sector project, Link to Change, Youth Intervention Specialist Team (VERU)
- Refer to National Referral Mechanism (NRM)
- Consider disruption options (Home Office Child Exploitation Disruption Toolkit)
- Address transition issues including referral to adult services/ adult safeguarding/Adult support services
- Refer to CEOP (Child Exploitation On Line Protection) https://www.ceop.police.uk/safety-centre/
- Agree date for review of assessment (Suggested time 3-6 months; unless there is significant change)

4 **DEFINITIONS & GUIDANCE**

Child Criminal Exploitation

CCE is not defined in law but is a term that has come to be associated with 'county lines'. The government definition of county lines is set out below together with the Home Office definition of child criminal exploitation, which is increasingly used to describe this type of exploitation where children are involved.

Child criminal exploitation occurs where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child or young person under the age of 18 into any criminal activity:

In exchange for something the victim needs or wants.

For the financial or other advantage of the perpetrator or facilitator.

Through violence or the threat of violence.

The victim may have been criminally exploited even if the activity appears consensual. Child criminal exploitation does not always involve physical contact, it can also occur through the use of technology.

The criminal exploitation of children is not confined to county lines but can also include other forms of criminal activity such as theft, acquisitive crime, knife crimes and other forms of criminality.

Criminal Exploitation of children and vulnerable adults: County Lines guidance

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs into one or more importing areas [within the UK], using dedicated mobile phone lines or other form of 'deal line'. They are likely to exploit children and vulnerable adults to move and store the drugs and money and they will often use coercion, intimidation, violence (including sexual violence) and weapons.

Children and Young People Trafficked for the purpose of Criminal Exploitation

https://www.childrenssociety.org.uk/sites/default/files/exploitation-toolkit.pdf

Child Sexual Exploitation

Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact, it can also occur through the use of technology.

Definition taken from Department for Education's Definition and a guide for practitioners, local leaders and decision makers working to protect children from child sexual exploitation (2017)

https://www.gov.uk/government/publications/child-sexual-exploitation-definition-and-guide-for-practitioners

Child Exploitation Disruption Toolkit

Perpetrators of child sexual exploitation (CSE) and child criminal exploitation (CCE) can share patterns of behaviour in respect of coercion, violence, intimidation and the power imbalance inherent in them and many other offences.

This toolkit is primarily aimed at frontline staff working to safeguard children and young people under the age of 18 from sexual and criminal exploitation. This includes law enforcement, social care, housing, education, the voluntary sector and related partner organisations.
